

Women's Health Hub

We're here to help - offering specialist advice and support, working alongside your GP practice to help you feel informed and confident in managing your health.

Your first appointment

30 minutes

Talk through your concerns with a Women's Health Specialist.

What we'll cover

- Discuss your symptoms and medical history
- Review previous investigations / treatments
- Talk through treatment options
- Agree your personalised care plan
- Arrange further tests if needed

Your follow-up

15 minutes

Review how you're getting on and make any changes needed.

We will:

- Review your symptoms
- Check how treatment is working
- Answer your questions
- Update your care plan

Ongoing care with your GP

Once you've been seen by our Specialist and your treatment plan is agreed, your ongoing care will usually continue with your own GP Practice.
